

# CHANGE EXECUTION ACCELERATOR

ALIGNING THE SYSTEM SO CHANGE CAN GAIN TRACTION.

## Executive Overview

The Change Execution Accelerator is a seven-month, cohort-based engagement designed to help organizations understand why change efforts lose traction and what conditions must shift for execution to succeed. It is built for leaders navigating multiple, overlapping initiatives who need clearer signals before investing in deeper change work. The engagement creates shared understanding across leaders while preserving flexibility in how insights are acted on.

Rather than delivering or implementing change, this accelerator provides a focused diagnosis of execution readiness and builds leaders' capacity to address systemic barriers slowing progress.

**What's included:** This accelerator is delivered as a private, organization-specific engagement focused on real-time execution challenges:

1

### Change Execution Readiness Report

A structured diagnostic that assesses the system conditions required for change to move and sustain momentum, including strategic clarity, priority alignment, decision rights, leadership alignment, operating rhythms, and accountability for adoption.

2

### Change Leader Roundtable Sessions

Participation in six facilitated cohort-based sessions that help leaders interpret readiness insights, learn alongside peers, and strengthen internal discipline for leading change.

## Key Outcomes

Clients leave the engagement with:

- Clear visibility into where execution is most likely to stall
- Shared understanding of system conditions shaping change success
- Stronger internal change leadership capability
- Clear signals about whether and where deeper intervention is needed

## Investment: \$25,000 fixed fee

- Seven-month cohort-based engagement
- Includes readiness assessment and six facilitated roundtable sessions
- Designed as a diagnostic and capability-building experience
