

TEAM PERFORMANCE ACCELERATOR

A FAST, EVIDENCE-BASED RESET TO IMPROVE HOW A TEAM WORKS TOGETHER.

Executive Overview

The Team Performance Accelerator is a focused, data-driven engagement designed to help teams quickly surface what is getting in the way of performance and align on how they work together. Organizations use this accelerator with newly formed or re-formed teams, teams under pressure, teams impacted by reorganization, or teams entering a critical execution phase. Anchored in data rather than opinion, the work translates insight into clear priorities and leader-led follow-through.

What's included: This accelerator is delivered as a private, organization-specific engagement using a structured, three-phase approach:

- 1 Discovery & Assessment**
Administration and analysis of the Team Insights™ 360 (TI360) assessment, combined with targeted discovery conversations with the team leader and select team members to build a shared, evidence-based view of team effectiveness.
- 2 Team Working Session (½ Day)**
A facilitated half-day session where the team reviews and interprets TI360 results, surfaces key patterns, and aligns on 2–3 priority shifts that will most improve performance.
- 3 Leader Advisory & Integration**
Advisory support with the team leader to translate insights into clear expectations, reinforce new ways of working, and embed agreed actions into day-to-day operations.
- 4 Additional Team Dynamics Insight (Optional)**
For teams that want deeper perspective, supplemental tools such as DiSC or MBTI can be added to support shared understanding of communication styles and working preferences.
